How to use the Affidavit of Execution included with your Last Will & Testament

What is an affidavit of execution?

- An optional document that makes it easier to prove the Will's validity.
- Eliminates the need to have at least one witness testify in court since the Will's validity is already proven by the affidavit. This can make probating a Will less expensive.

How do I use the affidavit?

Print as many affidavits as there are witnesses and take the documents, along with your completed Will and chosen witnesses, to a local commissioner of oaths or notary public.

Have your witnesses sign the affidavits under oath according to the commissioner/notary public's instructions.

Attach the completed and sealed affidavits to your Last Will and Testament.

Store all documents in a safe place.

Additional notes:

- Using an affidavit of execution is completely optional and will not affect the validity of the Will.
- The affidavits can be completed at the same time as the signing of your Will or at any later date.
- If you are likely to create a new Will in the near future, it may not be worth the effort to make this Will self-proving.
